Rainer Waldeck - Baroque lute

In July a CD by our German member Rainer Waldeck was released. In spite of its title *NEUE LAUTENSTÜCKE* (New Lute Music), it is not with contemporary, but with baroque lute music. The title comes from a book that Johann Gottfried Conradi published in Frankfurt an der Oder in 1724. This book consists of only 13 pieces, (14 pieces, if we count the *Menuet* I and II in A major separately)
